

## We Create & Run Services

---

Computer Club hacks on projects used at CMU and around the world:

- **Contributed Webserver**
- **Open Source Project Mirrors**
- **Open-Access Virtual Machines**
- **OpenVMS Cluster**
- **Realtime Graphics Demos**
- **Jabber & Zephyr Chat Servers**

## We Also Host Events

---

- **Demosplash:** The largest demoparty on the East Coast [ Nov 6-7 ]
- **Retro Gaming Night:** Classic games on original hardware [ Spring ]
- **Talk Series:** Unlock the full power of your system [ All Year ]

## And We Have Cool Toys

---

Members have access to our internal services:

- **Shell Machines:** Less crowded than Andrew and no nightly reboots.
- **Unusual Hardware:** Ancient, modern, or just plain weird? We have it.
- **Virtual Machines:** Why pay someone else to host your code?
